keenBANK

Posted Lobby CRA Notice

Under the Federal Community Reinvestment Act (CRA), the Comptroller of the Currency (OCC) evaluates our record of helping to meet the credit needs of this community, consistent with safe and sound operations. The OCC also takes this record into account when deciding on certain applications submitted by us. Your involvement is encouraged.

You are entitled to certain information about our operations and our performance under the CRA, including, for example, information about our branches, such as their location and services provided at them; the public section of our most recent CRA Performance Evaluation, prepared by the OCC; and comments received from the public relating to assessment area needs and opportunities, as well as our responses to those comments. You may review this information today by reviewing the public file, which is available at our Waseca location, 101 State Street North, Waseca, MN 56093.

You may also have access to the following additional information, which we will make available to you after you make a request to us: (1) A map showing the assessment area containing a select branch, which is the area in which the OCC evaluates our CRA performance for that particular community; (2) branch addresses and associated branch facilities and hours in any assessment area; (3) a list of services we provide at those locations; (4) our most recent rating in the assessment area; and (5) copies of all written comments received by us that specifically relate to the needs and opportunities of a given assessment area, and any responses we have made to those comments. If we are operating under an approved strategic plan, you may also have access to a copy of the plan.

At least 30 days before the beginning of each quarter, the OCC publishes a nationwide list of the banks that are scheduled for CRA examination in that quarter. This list is available from the Deputy Comptroller, 425 S. Financial Place, Suite 1700, Chicago, IL 60605. You may send written comments regarding the needs and opportunities of any of the banks assessment area(s) to Bernard Gaytko, President, Keen Bank of Waseca, 101 North State Street, Waseca, MN 56093, bgaytko@keen.bank, and Deputy Comptroller of the OCC at 425 South Financial Place, Suite 1700, Chicago, IL 60605, CRAComments@occ.treas.gov. Your comments, together with any response by us, will be considered by the Comptroller in evaluating our CRA performance and may be made public.

You may ask to look at any comments received by the Deputy Comptroller. You may also request from the Deputy Comptroller an announcement of our applications covered by the CRA filed with the Comptroller. (We are an affiliate of Frankson Investment Co., a bank holding company). You may request from the Regional Director of the Federal Reserve Bank of Minneapolis, P.O. Box 491, Minneapolis, MN 55408. an announcement of applications covered by the CRA filed by bank holding companies.

Overall CRA Rating

Institution's CRA Rating: This institution is rated: **Outstanding.**

The lending test is rated: Outstanding.

The major factors that support this rating include:

- The distribution of loans to borrowers of different income levels and businesses of different sizes is excellent.
- A majority of loans are originated or purchased inside the assessment area (AA).
- The loan-to-deposit (LTD) ratio is reasonable.
- The bank did not receive any CRA related complaints during the evaluation period.

Loan-to-Deposit Ratio

Keen Bank's LTD ratio is reasonable considering the bank's size, financial condition, and credit needs of the AA.

The bank's average quarterly LTD was 82.3 percent over the 14 quarters between September 30, 2018, and December 31, 2021. The LTD ratio ranged from 64.0 percent to 94.1 percent during that time. Keen Bank is ranked second out of four similarly situated institutions. Similarly situated institutions shared at least one assessment area and had a similar asset-size, ranging from \$121.5 million to \$181.4 million as of December 31, 2021.

Loan-to-Deposit Ratio		
Institution	Total Assets \$(000s)	Average LTD Ratio (%)
Security Bank Minnesota	149,442	90.5
Keen Bank, National Association	172,056	82.3
Arcadian Bank	181,439	81.6
Produce State Bank	121,534	60.4

Source: Call Report Data from September 30, 2018, to December 31, 2021.

Lending in Assessment Area

A majority of the bank's loans are inside its AA.

The bank originated and purchased 55 percent by number and 51.7 percent by dollar of its loans inside the bank's AAs during the evaluation period. This analysis is performed at the bank, rather than the AA, level, by selecting a sample of 20 home mortgage and 20 small business loans originated or purchased during the evaluation period.

Lending Inside and Outside of the Assessment Area

Total	22	55.0	18	45.0	40	5,635	51.7	5,271	48.3	10,906

Description of Institution

Keen Bank is a \$172 million, single state community bank with three branch locations. The bank is 100 percent owned by Frankson Investment Corporation, a single bank holding company located in Waseca, MN. Keen Bank does not have any subsidiaries or affiliates, aside from the holding company. Holding company assets total \$13.6MM as of 12/31/21. No merger or acquisition activities affected the bank during the evaluation period. The bank recently changed its name to Keen Bank, from First National Bank of Waseca, in April 2022.

The bank is headquartered in Waseca, MN, 70 miles south of Minneapolis, MN in Waseca County. The other two branches are located in Hope, MN and Ellendale, MN, in Steele County and Freeborn County, respectively. The Waseca branch has an onsite ATM and night drop that are available to customers 24 hours a day, seven days a week. There is also a second ATM located inside the Waseca High School. The bank does not operate any deposit-taking ATMs. The bank has one AA, referred to as the Waseca AA, including Waseca County, the northern portion of Freeborn County, and the southern portion of Steele County.

Keen Bank offers traditional banking products and services. Home mortgage and business loans are the banks primary products. As of December 31, 2021, the bank's outstanding loan portfolio totaled \$111.6 million. The loan portfolio by dollar volume is comprised of 50.0 percent home loans, 44.5 percent business loans, 3.0 percent consumer loans, and 2.6 percent farm loans. Net loans and leases represented 61.91 percent of average assets, and Tier 1 capital is \$13.8 million.

The most recent CRA Performance Evaluation, dated August 13, 2018, resulted in a Satisfactory overall rating. There are no legal, financial, or other factors impeding the bank's ability to help meet the credit needs in its AA.

Scope of the Evaluation

Evaluation Period/Products Evaluated

Keen Bank was evaluated under CRA small bank procedures, which consists of the Lending Test. The evaluation period for the LTD analysis covered the quarters ending September 30, 2018, to December 31, 2021. The complaints analysis period covered August 14, 2018, to October 24, 2022. The evaluation period for the remaining portions of the Lending Test covered January 1, 2019, through December 31, 2021.

We determined Keen Bank's primary loan products for the AA by reviewing the number and dollar volume of loan originations and purchases during the evaluation period. Home and business loans were Keen Bank's primary loan products in the AA as they represented the largest volume by dollar. We reviewed samples of 20 home and 20 business loans originated or purchased during the evaluation period to complete the Lending Test analysis.

The table below to reflects total loan purchases and originations by dollar and number during the evaluation period.

Loan Originations and Purchases 2019-2021				
Loan Type	Number of Loans		Dollar of Loans	
	#	%	\$ (000s)	%
Farm	27	2	1,808	2
Business	247	22	37,477	40
Consumer	524	47	5,962	6
Home	323	29	48,983	52
Total	1,121	100	94,230	100
<i>Source: Bank data. Due to rounding, totals may not equal 100.0</i>				

We reviewed the AA's financial, economic, and environmental factors to determine the bank's lending performance. We also contacted a community member with knowledge of the area's economic conditions and demographics to gather additional insight on lending needs in the AA.

Selection of Areas for Full-Scope Review

The Waseca AA was selected for a full-scope review as it is the bank's only AA. Refer to Appendix A: Scope of Examination for an outline of the examination scope.

Ratings

The bank's overall rating is based on the state of Minnesota, as the bank only has branches in Minnesota. The state rating is based on performance in the bank's single AA, the Waseca AA. The bank's lending performance was evaluated on four performance criteria: the loan-to-deposit ratio, lending in the AA, lending to borrowers of different incomes, and responses to CRA related complaints. We did not assess the distribution of loans to geographies of different income levels. The AA is comprised entirely of middle- and upper-income geographies, As a result, the geographical distribution would not provide a meaningful analysis.

Discriminatory or Other Illegal Credit Practices Review

Pursuant to 12 CFR 25.28(c) in determining a national bank's or federal savings association's (collectively, bank) CRA rating, the OCC considers evidence of discriminatory or other illegal credit practices in any geography by the bank, or in any AA by an affiliate whose loans have been considered as part of the bank's lending performance. As part of this evaluation process, the OCC consults with other federal agencies with responsibility for compliance with the relevant laws and regulations, including the U.S. Department of Justice, the U.S. Department of Housing and Urban Development, and the Consumer Financial Protection Bureau, as applicable.

The OCC has not identified that this institution has engaged in discriminatory or other illegal credit practices that require consideration in this evaluation.

The OCC will consider any information that this institution engaged in discriminatory or other illegal credit practices, identified by or provided to the OCC before the end of the institution's next performance evaluation in that subsequent evaluation, even if the information concerns activities that occurred during the evaluation period addressed in this performance evaluation.

State Rating

State of Minnesota

CRA rating for the State of Minnesota: Outstanding

The Lending Test is rated: Outstanding

The major factors that support this rating include:

- The distribution of loans to businesses of different sizes and borrowers of different income levels is excellent.
- Keen Bank did not receive any CRA related complaints during the review period.
- Geographic distribution is not meaningful since the bank's AA does not include any low- or moderate-income (LMI) CTs.

Description of Institution's Operations in Minnesota

Keen Bank has three branches, entirely located in the state of Minnesota. Locations include Waseca, Hope, and Ellendale, MN.

The bank has one AA, which includes the five CTs in Waseca County, two CTs in northern Freeborn County, and two CTs in southern Steele County. Eight of the CTs in the AA are middle-income and one CT is upper-income. There are no low- or moderate-income CTs in the AA. The bank's AA reasonably excludes several census tracts in Steele and Freeborn counties where the bank does not have a presence.

Competition within the AA is strong. According to the FDIC Deposit Market Share Report as of June 30, 2022, twenty-two financial institutions operate within the AA . Keen Bank ranks fifth in deposit market share with \$160 million in deposits, representing 6.9 percent of the deposit market share. Wells Fargo holds the largest share of deposits within the AA, with \$420 million representing 18.0 percent of the deposit market share. US Bank holds the next largest share in the AA with \$264 million representing 11.4 percent of the deposit market share.

The AA's unemployment rate tends to follow Minnesota's trend overall. The AA's economy was moderately impacted by the Covid-19 pandemic but is recovering quickly. According to the Bureau of Labor Statistics (BLS), the Waseca County unemployment rate reached a high of 9.7 percent in 2020, while Minnesota's high was 10.9 percent. This is an increase from the Waseca County annual average in 2019, pre-pandemic, of 4.1 percent. The average unemployment rate in Waseca county fell back to an average of 3.9 percent in 2021.

We contacted one community member with a local organization located in Waseca. The community contact stated there are multiple opportunities available for local financial institutions in the Waseca area to be involved with and invest in the community, despite tighter household disposable income and decreased housing availability. They also noted banks in the Waseca area are highly involved, providing financial support to local organizations in numerous ways including schools within the community.

The following tables provide demographic information on the Waseca AA during the evaluation period. We analyzed and incorporated relevant demographic information from the AA in the Lending Test to evaluate the bank's home mortgage and business lending performance.

Waseca AA

Table A – Demographic Information of the Assessment Area						
Assessment Area: FNB Waseca - Waseca AA

Scope of Evaluation in Minnesota

The rating for the state of Minnesota is based fully on the performance in the Waseca AA as it is the bank's only AA. We completed a full-scope review of the Waseca AA. Refer to Appendix A, Scope of Examination, for more information.

LENDING TEST

The bank's performance under the Lending Test in Minnesota is rated Outstanding.

The bank's lending activity reflects outstanding responsiveness to AA credit needs for home mortgage and small business loans.

Conclusions for Area Receiving a Full-Scope Review

Based on a full-scope review the bank's performance in the Waseca AA is excellent.

Distribution of Loans by Income Level of the Borrower

The bank exhibits excellent distribution of loans to individuals of different income levels and businesses of different sizes when compared to aggregate lending data and AA demographics.

Home Mortgage Loans

Refer to Table P in the state of Minnesota section of Appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

The borrower distribution of home mortgage loans to individuals of income levels is excellent. The bank originated 35 percent of its home loans to low-income borrowers, significantly exceeding demographic and aggregate lending comparators. The bank's lending to moderate-income borrowers represented 20 percent of home mortgage loans in our sample, exceeding the demographic comparator and near to the aggregate lending comparator. Demographic lending performance is considered a better comparator as it reflects the credit needs of the community. Strong competition hindered the bank from exceeding the aggregate comparator for moderate-income borrowers.

Small Loans to Businesses

Refer to Table R in the state of Minnesota section of Appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to businesses.

The borrower distribution of loans to businesses of different sizes is excellent. The bank's lending to small businesses significantly exceeds the aggregate lending to small businesses comparator and is near to the demographic comparator.

Distribution of Loans by Income Level of the Geography

Refer to Tables O and Q in the state of Minnesota section of Appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of home mortgage and small business loans.

Geographic distribution is not meaningful because there are no LMI CTs in the bank's AA.

Responses to Complaints

There were no consumer complaints pertaining to Keen Bank's CRA performance during the evaluation period.

Appendix A: Scope of Examination

The following table identifies the time period covered in this evaluation, affiliate activities that were reviewed, and loan products considered. The table also reflects the MSAs and non-MSAs that received comprehensive examination review, designated by the term “full-scope,” and those that received a less comprehensive review, designated by the term “limited-scope”.

RATINGS – Keen Bank	
Overall Bank:	Lending Test Rating
Keen Bank	Outstanding
State:	
Minnesota	Outstanding

Appendix C: Definitions and Common Abbreviations

The following terms and abbreviations are used in this performance evaluation, including the CRA tables. The definitions are intended to provide the reader with a general understanding of the terms, not a strict legal definition.

Affiliate: Any company that controls, is controlled by, or is under common control with another company. A company is under common control with another company if the same company directly or indirectly controls both companies. For example, a bank subsidiary is controlled by the bank and is, therefore, an affiliate.

Aggregate Lending (Aggt.): The number of loans originated and purchased by all reporting lenders (HMDA or CRA) in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/assessment area.

Census Tract (CT): A small, relatively permanent statistical subdivision of a county delineated by a local committee of census data users for the purpose of presenting data. Census tracts nest within counties, and their boundaries normally follow visible features, but may follow legal geography boundaries and other non-visible features in some instances, Census tracts ideally contain about 4,000 people and 1,600 housing units.

Combined Statistical Area (CSA): A geographic entity consisting of two or more adjacent Core Based Statistical Areas with employment interchange measures of at least 15. An employment interchange measure is a measure of ties between two adjacent entities. The employment interchange measure is the sum of the percentage of workers living in the smaller entity who work in the larger entity and the percentage of employment in the smaller entity that is accounted for by workers who reside in the larger entity.

Community Development (CD): Affordable housing (including multifamily rental housing) for low- or moderate-income individuals; community services targeted to low- or moderate-income individuals; activities that promote economic development by financing businesses or farms that meet Small Business Administration Development Company or Small Business Investment Company programs size eligibility standards or have gross annual revenues of \$1 million or less; or activities that revitalize or stabilize low- or moderate-income geographies, distressed or underserved nonmetropolitan middle-income geographies, or designated disaster areas.

Community Reinvestment Act (CRA): The statute that requires the OCC to evaluate a bank's record of meeting the credit needs of its entire community, including LMI areas, consistent with the safe and sound operation of the bank, and to take this record into account when evaluating certain corporate applications filed by the bank.

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, other secured consumer loans, and other unsecured consumer loans.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family, which is further classified into ‘male householder’ (a family with a male householder and no wife present) or ‘female householder’ (a family with a female householder and no husband present).

Full-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower distribution, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that conduct business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants, the amount of loan requested, the disposition of the application (e.g., approved, denied, and withdrawn), the lien status of the collateral, any requests for preapproval, and loans for manufactured housing.

Home Mortgage Loans: A closed-end mortgage loan or an open-end line of credit as these terms are defined under 12 CFR 1003.2, and that is not an excluded transaction under 12 CFR 1003.3(c)(1) through (c)(10) and (c)(13).

Household: Includes all persons occupying a housing unit. Persons not living in households are classified as living in group quarters. In 100 percent tabulations, the count of households always equals the count of occupied housing units.

Limited-Scope Review: Performance under the Lending, Investment, and Service Tests is analyzed using only quantitative factors (e.g., geographic distribution, borrower distribution, total number and dollar amount of investments, and branch distribution).

Low-Income Individual: Individual income that is less than 50 percent of the area median income.

Low Income Geography: A census tract with a median family income that is less than 50 percent.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/assessment area.

Median Family Income (MFI): The median income determined by the U.S. Census Bureau every five years and used to determine the income level category of geographies. The median is the point at which half of the families have income above, and half below, a range of incomes. Also, the median income determined by the Federal Financial Institutions Examination Council (FFIEC) annually that is used to determine the income level category of individuals. For any given area, the median is the point at which half of the families have income above, and half below, a range of incomes.

Metropolitan Division: As defined by Office of Management and Budget, a county or group of counties within a Core Based Statistical Area that contains an urbanized population of at least 2.5 million. A Metropolitan Division consists of one or more main/secondary counties that represent an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area: An area, defined by the Office of Management and Budget, as a core based statistical area associated with at least one urbanized area that has a population of at least 50,000. The Metropolitan Statistical Area comprises the central county or counties containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 percent and less than 120 percent, in the case of a geography

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 percent and less than 80 percent, in the case of a geography.

Multifamily: Refers to a residential structure that contains five or more units.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A qualified investment is defined as any lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rating Area: A rated area is a state or multi-state metropolitan statistical area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multi-state metropolitan statistical area, the institution will receive a rating for the multi-state metropolitan statistical area.

Small Loan(s) to Business(es): A loan included in 'loans to small businesses' as defined in the Consolidated Report of Condition and Income (Call Report) instructions. These loans have original amounts of \$1 million or less and typically are either secured by nonfarm or nonresidential real estate or are classified as commercial and industrial loans.

Small Loan(s) to Farm(s): A loan included in 'loans to small farms' as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland or are classified as loans to finance agricultural production and other loans to farmers.

Tier 1 Capital: The total of common shareholders' equity, perpetual preferred shareholders' equity with non-cumulative dividends, retained earnings and minority interests in the equity accounts of consolidated subsidiaries.

Upper-Income: Individual income that is at least 120 percent of the area median income, or a median family income that is at least 120 percent, in the case of a geography.

Appendix D: Tables of Performance Data

Content of Standardized Tables

A separate set of tables is provided for each state. All multistate metropolitan statistical areas, if applicable, are presented in one set of tables. References to the “bank” include activities of any affiliates that the bank provided for consideration (refer to appendix A: Scope of the Examination). For purposes of reviewing the Lending Test tables, the following are applicable: (1) purchased are treated as originations; and (2) “aggregate” is the percentage of the aggregate number of reportable loans originated and purchased by all HMDA or CRA-reporting lenders in the MMSA/assessment area. Deposit data are compiled by the FDIC and are available as of June 30th of each year. Tables without data are not included in this PE.

The following is a listing and brief description of the tables included in each set:

Table O. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Geography - Compares the percentage distribution of the number of loans originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies to the percentage distribution of owner-occupied housing units throughout those geographies. The table also presents aggregate peer data for the years the data is available.

Table P. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Borrower - Compares the percentage distribution of the number of loans originated and purchased by the bank to low-, moderate-, middle-, and upper-income borrowers to the percentage distribution of families by income level in each MMSA/assessment area. The table also presents aggregate peer data for the years the data is available.

Table Q. Assessment Area Distribution of Loans to Small Businesses by Income Category of the Geography - The percentage distribution of the number of small loans (less than or equal to \$1 million) to businesses that were originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies compared to the percentage distribution of businesses (regardless of revenue size) in those geographies. Because aggregate small business data are not available for geographic areas smaller than counties, it may be necessary to compare bank loan data to aggregate data from geographic areas larger than the bank’s assessment area.

Table R. Assessment Area Distribution of Loans to Small Businesses by Gross Annual Revenue - Compares the percentage distribution of the number of small loans (loans less than or equal to \$1 million) originated and purchased by the bank to businesses with revenues of \$1 million or less to: 1) the percentage distribution of businesses with revenues of greater than \$1 million; and, 2) the percentage distribution of businesses for which revenues are not available. The table also presents aggregate peer small business data for the years the data is available.
